Public Notice Concerning Kansas / Federal
Water Pollution Control Permits and Applications

State of Kansas
Department of Health and Environment
Division of Environment-Bureau of Water
1000 SW Jackson St., Suite 420
Topeka, Kansas 66612-1367
Telephone: (785) 296-6432 - Ag Permits
(785) 296-5517 - All Others

Public Notice No. KS-AG-17-077/080
KS-AG-R-17-009/010
KS-Q-17-069/070

Beginning Date: June 1, 2017
Comments Due: July 1, 2017

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 17, 28-18a-1 through 33, 28-16-150 through 154, 28-46-7, and the authority vested with the State by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Public Notice No. KS-AG-17-077/080

Pending Permits for Confined Feeding Facilities

<u>Name And Address of Applicant</u>	<u>Legal Description</u>	<u>Receiving Water</u>
Justin Ohlde Ohlde's Dairy 1814 9 th Road Linn, KS 66953	NW/4 of Section 24 T04S, R03E Washington County	Big Blue River Basin

Kanas Permit No.: A-BBWS-D002

Federal Permit No.: KS0093947

This is a permit modification and reissuance for an existing dairy. There is no change to the existing capacity of 3,522 head (4,750.8 animal units) of dairy cattle consisting of 3,322 head (4,650.8 animal units) of mature dairy cattle and 200 head (100 animal units) of replacement heifers weighing 700 pounds or less each. Proposed modifications include building four freestall barns and four parallel concrete solids separation channels. The facility has an approved Nutrient Management Plan.

Public Notice No. KS-Q-17-069/070

The requirements of the draft permit public noticed below are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28 (b-g), and Federal Surface Water Criteria.

<u>NAME AND ADDRESS OF APPLICANT</u>	<u>RECEIVING STREAM</u>	<u>TYPE OF DISCHARGE</u>
Futamura USA Films, Inc. 6000 SE Second Tecumseh, KS 66542	Kansas River	Process Wastewater

Kansas Permit No. I-KS72-PO09	Federal Permit No. KS0003204
Legal Description: SE¼, NW¼, S31, T11S, R17E, Shawnee County, KS	

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This facility produces cellophane from wood pulp for use primarily in food packaging. The cellophane production process generates acid, alkaline, and neutral wastewater streams. The alkaline wastewater stream includes domestic waste flows from the administrative building and alkaline waste stream from the mix house, finishing, coating, casting, and viscose manufacturing areas (VMA). The acid waste stream includes acid waste process flows from the casting areas, boiler blowdown, and process flow from the power house which includes demineralizer and sodium softening regeneration liquors, sand filter backwash, and cooling tower blowdown. Neutral water flow from the evaporator barometric condenser is normally used for sludge dredging or diverted around waste treatment and commingled with the clarifier effluent in the outfall sewer. Steam condensate from other sources is also directed to the wastewater treatment system. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, E. coli, total residual chlorine, whole effluent toxicity, and pH, as well as monitoring for sulfate, total dissolved solids, ammonia, nitrate + nitrite, total Kjeldahl nitrogen, total phosphorus, carbon disulfide, priority pollutants, and flow. Contained in the permit is a schedule of compliance requiring the permittee to complete an approved dye test and provide documentation and calculations showing the actual mixing zone at the Kanas River Flow.

Martin Marietta Materials Inc. 7381 West 133 rd St, Suite 401 Overland Park, KS 66213	Wakarusa River via Clinton Lake via Unnamed Tributary	Pit De-Watering & Stormwater Runoff
--	---	--

Kansas Permit No. I-KS31-PO08	Federal Permit No. KS0116114
Legal Description: SW¼, S1, T13S, R18E, Douglas County, KS	

Facility Name: Lawrence Quarry

The proposed action is to reissue an existing permit for discharge during quarrying operations. This is a limestone quarrying and crushing operation, with occasional rock washing. Outfall 001A1 consists of treated wash water and stormwater runoff. Outfall 002A1 consists of pit water and storm water runoff. The proposed permit contains limits for total suspended solids.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Livestock Waste Management Section for agricultural related draft documents or applications, or to the permit clerk for all other permits, at the Kansas Department of

Health and Environment, Division of Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas 66612-1367.

All comments regarding the draft documents or application notices received on or before **July 1, 2017**, will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-17-077/080, KS-AG-17-009/010, KS-Q-17-069/070) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/ application. If response to any draft document / application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents / application and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m., Monday through Friday, excluding holidays.
